

**Essence:** Sweet children, continue to invent new methods for *service*. Become the Father's complete helpers in making Bharat into the deity self-sovereignty.

**Question:** Which hope does the Father have in you by reminding you of one thing in particular?

**Answer:** Baba reminds you: Children, you have become conquerors of Maya and conquerors of the world every cycle. You gained the throne of the mother and father and this is why you must now not be afraid of the storms of Maya. Never be influenced by Maya and thereby defame the name of the clan. Beloved children, maintain the honour of this old father's beard. Don't perform any such actions that would defame the name of the father. Chase away the vices with the power of yoga and become incorporeal and egoless, the same as the Father.

**Song:** Having taken an oath, I have come to Your door.

Om shanti. Sweetest beloved, long-lost and now-found children, you know very well that you children definitely receive love from the unlimited Father. A physical, limited father loves the children he has created, looks after them very well and serves them so that his clan grows. On the path of devotion, too, everyone remembers the unlimited Father. You must definitely meet the Father at some time. Here, the Father says: I am your Father, the One who gives you teachings, that is, I am the One who gives you the *knowledge* of the beginning, the middle and the end of the *drama*. This is called knowledge. In the scriptures, they have knowledge of the path of devotion. No one can receive liberation or liberation-in-life through that. The Father says: I am the Bestower of Liberation and Liberation-in-Life for all. I Myself have to come to give you liberation and liberation-in-life. So, I Myself have to come every cycle at the confluence age. According to the *drama*, the five vices of Maya make you experience sorrow. You know that mountains of sorrow are to fall and that destruction is to take place. At that time, the *part* of bloodshed without cause will be enacted. So many rivers of blood will flow. In the golden age, rivers of ghee are to flow. When the rivers of blood flow, there will be cries of distress. They will become very unhappy. You children now have to increase Baba's *service* very well. It is only through you helpers that Bharat becomes heaven. You children know that you beloved, long-lost and now-found decoration of the Brahmin clan will make Bharat into the deity self-sovereignty once again. You claim your inheritance of the deity self-sovereignty from the Father. Baba says: Children, continue to invent methods for *service*. Baba has thoughts about this. This is what is called the discus of self-realisation. This is a very good thing. You can do very good *service* with it. There is no expense in establishing the kingdom, that is, in changing Bharat from the kingdom of Ravan into the kingdom of Rama. You are *non-violent*, full of all virtues, 16 celestial degrees full, completely viceless, and those who follow the supreme religion of non-violence. You say that you have to become Baba's helpers and make Bharat like a diamond. We continue to do this *service* every cycle. We are now on *Godfatherly service*. We are also *Godfatherly students and Godfatherly children*. We have a very big *responsibility*. Those who become the children have a *responsibility*. Baba says: Remain cautious. Don't make mistakes. Baba tells you about different types of *service*. In which way did Baba show the people of Bharat the method to claim the inheritance from the unlimited Father? It is explained that this inheritance is a birthright for 21 births in the golden age. The golden-aged *deity sovereignty is your Godfatherly birthright*. The Father is the One who establishes heaven. You have to make effort here. Don't think that you will make effort in the golden age. Baba has to explain so that all the children listen. This cycle is the discus of self-realisation. Make a big picture of this on *iron sheets* and place them in big places. Everything should be written clearly at the bottom of the picture. Those who see this will understand that this is *right*. The time will continue to come close. It will enter people's hearts that the golden age is now really close. Baba continues to give you children advice for *service* from time to time. Do this and *service* will grow. Each one of you can put up this *board* outside your home. Let there also be this picture of Shiv Baba: This is the God of the Gita. Then, it should be written: *Deity world sovereignty is your birthright*. Each of you can put up this *board* outside your home. You are the Ganges of knowledge. Many who see the *board* will come. Explain to them: The Father of you souls is that incorporeal One. You are all brothers. We are claiming our inheritance from that Father. As you progress further, there will be a lot of pomp and show that that same God has come here. There is the name of Brahma Kumars and Kumaris. Shiv Baba's name is also mentioned. As you progress further, people will understand that the kingdom will definitely be established. There are obstacles in a sacrificial fire because there are no kings and queens. It is the rule of people over people. If you explain to someone and he

takes the side of the Brahma Kumaris, other people cause upheaval. They feel that all religions should be united. How can all the different religions be united? They themselves say that they don't believe in religion. To forget your own religion is also in the *drama*. When other religions are established, the deity religion disappears. This is why all of them call themselves Hindus. The deity religion has disappeared. Therefore, Baba says: I have come once again to establish the deity religion. The destruction of the innumerable religions is also in front of you. However, for how long will the Father stay here? There will also be calamities. People say that there are hundreds of thousands of years before the golden age comes. You know that you are today in hell and that you will go to heaven tomorrow. We souls are racing. Our 84 births have now come to an end. Our *parts* of sorrow have ended. Baba, we are now about to come to You. This is our final birth. Baba, the Bridegroom, has come. He says: Become worthy of the pure world and I will take you back with Me. If you don't become worthy through yoga, there will have to be punishment and the status will then be reduced. This is a very easy matter. You receive unlimited happiness from the unlimited Father. This is why you have to remember the unlimited Father and the inheritance of unlimited happiness. Remember Him as much as you want. To the extent that you remember Him, you will accordingly receive a status. You should definitely remember Him for eight hours. You have to make effort. He knows that children will make effort exactly as they did in the previous cycle. Observe as detached observers how much effort everyone is making to claim their inheritance from the *most beloved* Father. They are the ones who will claim a right to receive that for cycle after cycle. The Father taught you Raja Yoga for heaven. A physical father looks after his children so well! The unlimited Father also has to look after the children. Maya causes a lot of distress and makes you ill. Then, Baba comes and gives you medicine. This is the life-giving herb. It isn't that Hanuman brought the life-giving herb from the mountains. You simply have to remember the Father and the inheritance. You will not be able to remember your inheritance without remembering the Father. The path of devotion, that is, the night of Brahma, is now coming to an end. Baba has come and is establishing the day. For half the cycle, it is the day of Brahma and for half the cycle, it is the night of Brahma. There is extreme darkness. If you daughters sit and repeatedly explain to others, you can *show* (reveal) the lokik and parlokik mother and Father very well. It is the task of a father, the creator, to make his wife and children his companions. He has to show the path to his creation. He has to change the deal of sitting on the pyre of lust and make a deal to sit on the pyre of knowledge. A very good *board* can be made of this. The Father is very much concerned. The Father is incorporeal and egoless. Look how He sits and sustains you children! It is said: Whilst walking along the path, the brahmin became trapped. Baba did not know that He would enter him or that he would become Brahma and then Shri Narayan. He had to take so many insults. Baba says: They defame Me even more than they defame you. They insult you with one or two insults, but they have put Me into the pebbles and stones. They have defamed Me so much. You have to claim your fortune of the kingdom, and so what is the big deal if you have to take a few insults? They have been insulting Me for half the cycle. This too is a game in the predestined *drama*. Baba says: Beloved children, I have entered this one. Think about the honour of this one's beard. This one's beard means that One's beard. You mustn't accuse Him any more. Continue to chase away the vices with the power of yoga. Every cycle, you conquer Maya and become conquerors of the world. Even the subjects become the masters of heaven. However, you have to make effort and gain the throne of the mother and father. This is Raja Yoga. The Father knows that Mama and Baba become *number one*. Mama is a kumari and this one is a half kumar. If children do something wrong in a family, the father would say: Maintain the honour of my beard. Do not defame my name. Place these *boards* outside your homes very clearly: Come and claim your inheritance from the unlimited Father. Kings and sannyasis have to awaken at the end. Day by day, you continue to become cleverer and you continue to receive power. You can see that destruction is just ahead of you. War is taking place and this is the sacrificial fire of the knowledge of Rudra. We are Brahmins. Brahmins will then become deities once again. To the extent that you make effort, so you will accordingly claim a high status. Day by day, it continues to become very easy. **The form of the Father has also been explained to you. He is a star,** but you mustn't explain this to new ones as soon as they come. Only when they understand everything very clearly and ask if God has such a big form should you explain to them. Many have these visions, but they don't understand the meaning of them at all. **Just as a soul is a sparkling star, so the Father is also the same. He alone is called the Supreme Father, the Supreme Soul, and so He is God. He enters this one. He comes and sits beside this one. A disciple sits next to his guru. He teaches you children. This one also sits beside Me. Bap and Dada are combined.** However, this is a deep secret.

Only when someone asks you about it should you explain. Otherwise, continue to say, "Baba, Baba". Baba is teaching you Raja Yoga for heaven. You children know that whatever has happened until now is the *drama*. Obstacles will continue to come. Maya will bring obstacles to you children with great force, but you mustn't let go of Baba's hand. Maya is an alligator who swallows even good beloved children. This happened in the previous cycle too. So, those who have sharp and clever intellects are able to understand everything. They will churn the ocean of knowledge: I will explain to others in this way and donate knowledge to them. Baba is Rup and Basant and you too are rup and basant. **Baba says: I am a *star*. I have this *part* recorded in Me.** Each soul has a *part* recorded in him. Those with the arrogance of science cannot understand these things. That *record* may become worn out or break, but this soul is an *immortal star* in which an *immortal part* is recorded; it has no *end*. If there is no *end*, there is no beginning; it continues all the time. You continue to understand the secrets of this *drama*. You are sticks for the blind, those without sight. You have to show them the path. It is now everyone's stage of retirement. You have to go beyond sound. Baba says: I will take everyone back. Therefore, remember the Father as much as possible and your sins will be absolved. This is called a spiritual pilgrimage. Baba says: O My traveller children, do not become weary! Remember the Father and creation. Become the masters of creation. This is extremely easy. Always continue to remember Shiv Baba. Even while driving, where should your intellect's yoga be? Baba gives you his own example. I used to sit and worship Narayan and my intellect would go in other directions and so I would then slap myself. Even now, the intellect races. While making effort, you have to shed your bodies in remembrance of that One. People do devotion in order to shed their bodies in remembrance of Krishna so that they can reach the land of Krishna. However, Krishna is not everyone's Father. The Father of all is One. The Father, Rama, the Bestower of Salvation for all, comes and grants salvation to All. Everyone receives liberation. Then, those who come down definitely have to see happiness first. New souls come from up above and this is why they are given respect, even though the name of the one whose body they enter is glorified. You children know that the kingdom is being established. We are becoming deities. Only you Brahmins are at the confluence age. All the rest are in the iron age. Those who come here will believe that it truly is the end of the iron age and that the world is changing. This is why there is the great Mahabharat War. Everyone receives *knowledge* through you. The Father comes to give a *lift* to the mothers because they are assaulted a great deal. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

#### **Essence for dharna:**

1. While seeing the effort of each one as a detached observer, you yourself have to practise staying in remembrance of the Father for eight hours.
- 2.
3. Become rup and basant the same as the Father, churn the ocean of knowledge and donate knowledge. Become a stick for the blind.

**Blessing:** May you be a constantly contented soul who renounces the consciousness of "mine" and does service as a *trustee*.

While living with your lokik family and doing service, always remember that you are a *trustee*, a server. When there isn't the slightest consciousness of "mine" while doing service, you will then remain content. When you have the consciousness of "mine" you become distressed. You think, "My child is doing this", and so where there is the consciousness of "mine", you become distressed and where you say "Yours", you begin to swim. To say "Yours" means to maintain your self-respect. To say "mine" means to have arrogance.

**Slogan:** Let there be the awareness of shrimat in your intellect at every moment for only then would you be said to be a soul who has surrendered from your heart.
